PRECAUTIONS

How to Handle Discs

- Handle a disc by its edges. Do not touch the playing side
- Before inserting a disc, wipe the disc outward from the disc center with a clean, soft, dry and lint-free cloth. Do not use solvents or thinners such as petrol/benzene or cleaners.
- After removing a disc from the disc slot, place the disc in a sleeve or case to keep it clean and prevent scratches.
- Do not stick paper or tape on the disc surface. If there is glue (or adhesive) on the disc surface, remove it before using the disc.

Precautions & Warnings

- To reduce the risk of fire, electric shock, and interference, do not attempt to repair this unit yourself. Refer all service to a qualified technician.
- Some MP3/WMA files may not be playable.
- Keep the volume at a reasonable level to avoid distracted driving. High volume levels may make it difficult to concentrate on traffic and road conditions while driving.
- If the car has been in direct sunlight for an extended period, you may need to reduce the temperature inside the car before turning on and using the unit.
- If the battery is disconnected, discharged, or changed, the preset memory of the unit will be lost and require reprogramming.
- The unit is designed to be installed in a level, horizontal position.
For optimal performance, avoid installing the unit at an angle.
- Never use excessive force when removing or attaching the faceplate.
Do not tightly grip the display and buttons to avoid damage.

Lithium Battery Cell Warnings

- Cell leakage may cause damage to the remote control
- Do not throw cells into fire as this may cause an explosion.
- Keep battery cells out of reach of children.

Drives and connections

Never place any foreign objects into the openings of the car radio (disc compartment, USB jack, card slot, AUX IN connection). Otherwise you might damage the slots and connections.

Others Warnings

Do not switch on the car radio for long periods of time when the motor is switched off. This could cause the car battery to discharge and the vehicle can no longer be started.

INSTALLATION

Installation Procedures

First complete the electrical connections and then check for correctness.

Installation Opening

This unit can be installed in any dashboard Having an opening as shown the right figure.

Important:

Remove the transport CD deck screws before use.

To Install the Car Radio

Be sure you test all connections first, and then follow these steps to install this unit.

1. Make sure the ignition is turned off, and then disconnect the cable from the vehicle battery's negative (-) terminal.
2. Disconnect the wire harness and the antenna.
3. Lift the left or right top corner of the plastic outer trim ring then pull it out to remove it.
4. Insert the two bracket keys into the left and right side of the chassis, as shown the below figure to separate the chassis from the housing.

5. Insert mounting sleeve into the dashboard and bend the mounting tabs out with a screwdriver. Make sure that the lock lever is flush with the mounting sleeve and is not projecting beyond.
6. Insert car radio into the mounting sleeve.
7. Use a metal strap to secure the rear part of the chassis using the hardware indicated.
8. Make wiring connections, as illustrated in the "Wiring Diagram."
9. Install the plastic outer trim ring.

INSTALLATION(CONT.)

- Only use speakers with 4 ohms impedance.
- Do not attach the control panel to the chassis before wiring is complete.
- The maximum current of the auto antenna is 200mA.

Wiring Connections

Removal of the Main Unit

1. Remove the metal strap from the main unit.
2. Remove the plastic trim out from the main unit.
3. Insert a bracket key into the left and right side of the main unit and draw the unit out of the mounting sleeve.

CONTROL PANEL BUTTON LOCATIONS

1. ⏻ (power)/SRC (source) button
2. SEL (select/menu) button and VOL (volume) knob
3. BND (band) button, AMS (automatic music search) button, 📶 button
4. ⏸ (pause/play), Preset station 1 button
5. INT (intro) , Preset station 2 button
6. RPT (repeat) , Preset station 3 button
7. RDM (random) , Preset station 4 button
8. -10 (previous 10 tracks), Preset station 5 button
9. +10 (next 10 tracks), Preset station 6 button
10. CLK (clock setting) button, 🕒 button
11. ⏮ (tune down, seek down, track down, fast reverse) button
12. ⏭ (tune up, seek up, track up, fast forward) button
13. MUTE button
14. ▲ (eject) button
15. Disc slot
16. IR remote control sensor
17. LCD Display
18. USB port & Micro SD Card Slot
19. MIC hole (built-in Microphone)
20. AUX IN (auxiliary input) jack
21. RESET button

GENERAL OPERATION

Turn Unit On/Off

- Press the power (⏻) /SRC button on the front panel to turn on the unit, and long press it again to turn off the unit.
- Press the power (⏻) button on the remote control to turn the unit on or off.

Adjust Volume (VOL)

Rotate the **VOL** knob on the front panel or press the **VOL+ ▲** /**VOL- ▼** button on the remote control to increase or decrease the volume level.

Adjust Menu Options (SEL)

- Press the **SEL** button on the front panel or press the **SELECT** button on the remote control repeatedly to cycle through the following adjustable audio functions: BASS, TREBLE, BALANCE, FADER, EQ OFF, LOUD OFF, DX, STEREO and VOLUME.
- Rotate the **VOL** knob on the front panel or press the **VOL+ ▲** /**VOL- ▼** button on the remote control to adjust the selected item.

- BASS/TREBLE: -07, -06, ~, -01, 00, +01, ~, +06, +07
- BALANCE: L07, L06, ~, L01, 00, R01, ~, R06, R07
- FADER: R07, R06 ~, R01, 00, F01, ~, F06, F07
- EQ(Equalizer) Setting: OFF, FLAT, POP, ROCK, CLASS
- Loudness: LOUD ON/OFF
- Reception Setting: DX/LOCAL
- Audio effect: Stereo/Mono
- Volume level: 00, 01, ~, 40

- Press and hold the **SEL** button on the front panel or press the **SELECT** button on the remote control to access these additional functions: VOL(LAS/ADJ), AREA EU(europe) / US(USA) frequency, CLOCK 12/24, BEEP ON/OFF.

- VOL(LAS/ADJ): This option allows you to preset a volume level as the power-on memory volume level.
- VOL LAST: In this mode, the unit switches on at the actual volume it had when it was last switched off.
- VOLADJ: In this mode, the unit switches on at the actual volume that you presetted a constant switch-on volume level.
Press the **SEL** button to enter the constant switch-on volume adjusting mode and the "A-VOL XX" will be shown on the LCD display.
Then you can adjust a constant switch-on volume level by rotating the **VOL** knob.
- AREA US(USA) and EU(europe) frequency: This unit is equipped the US(USA) / EU(europe) frequency. After selecting USA or Europe frequency, the sytem will switch to the selected frequency 3 seconds later.
- CLOCK 12/24:
This unit is equipped with two types of clock display formats, 24 hours and 12 hours. Rotate the volume knob to choose 24 hours format or 12 hours format.
- BEEP ON/OFF: Enables or disables the "BEEP" signal to confirm use.

- Rotate the **VOL** knob on the front panel or press the **VOL+ ▲** /**VOL- ▼** button on the remote control to adjust the selected item.

GENERAL OPERATION (CONT.)

Set the Clock (CLK)

1. To display clock time, press the **CLK** button.
2. To set clock time, press and hold the **CLK** button and the hour will flash.
3. Press the **◀** or **▶** button on the front panel or on the remote control to adjust the hour.
4. Press the **CLK** button and the minutes will flash.
5. Press the **◀** or **▶** button on the front panel or on the remote control to adjust the minute.
6. Note: During Bluetooth mode, the clock can not be adjusted.

Change the Source (SRC)

Press the **SRC** button to switch between RADIO, BT(Bluetooth), DISC(with a CD/MP3 disc inside the disc slot), USB(with USB device inserted), CARD(with Micro SD card inserted) and AUX-IN(auxiliary input) modes.

Preset Equalizer(EQ)

Press the **EQ** button on the remote control to choose a desired preset equalizer mode: OFF, FLAT, POP, ROCK, CLASS.

Loudness on/off

Press the **LOUD** button on the remote control to turn on the loudness to reinforce the output of bass frequencies, press again to turn it off.

Mute on/off

In power on mode, briefly press the **MUTE** button to toggle mute on or off. The muted state will be also released when the volume knob is used.

USB port

The USB port of this car radio is designed for media playback from flash memory devices. Note: This USB port is not designed to charge high-power devices.

Built-in Microphone

To receive your voice when you calling by using this bluetooth handsfree system.

Aux input connector

The 3.5mm auxiliary input stereo connection is designed for deiveces with 3.5mm line-out or headphone output.

Reset System (RESET)

The RESET button is used to reset all parameters to factory default settings. This function may be used when the LCD does not display normally or sound is distorted, or when any of the controls are disabled. To reset your system, use a thin object with a pointed end to press the **RESET** button .

RADIO OPERATION

Switch Between Middle east area and Europe area Frequency

In radio mode, press and hold the **VOL** button to select the US(USA) and EU(europe) frequency, then rotate it to switch between US(USA) and EU(europe) frequency. The system will change the frequency setting in about 3 seconds.

Change Bands (BAND)

Press the **BAND** button to switch between the FM1, FM2, FM3, AM1 and AM2 bands. Each band stores up to six preset stations.

Manual Tuning (◀◀ / ▶▶)

Press and hold the ▶▶ or ◀◀ button on the front panel or on the remote control to enter manual tuning mode. In manual tuning mode, press the ▶▶ or ◀◀ button to move the radio frequency number up or down one step.

Auto Seek Tuning (◀◀ / ▶▶)

In standby mode or while not in manual tuning mode, quickly press the ▶▶ or ◀◀ button to move to the next/previous available station automatically.

To Store / Recall Preset Stations

The radio can be stored 6 preset stations for each band (FM1, FM2, FM3, AM1 and AM2) for a total of 30 preset stations.

To memorize a station:

- Turn the radio on and select the desired band and station.
- Select a station by ▶▶ or ◀◀ button.
- Press and hold the desired preset button (numbered 1-6 on the face of the radio) for more than 2 seconds to save the station to that preset number.

- To recall a preset station:

- Select the desired band.
- Briefly press a preset button (numbered 1-6) to recall the corresponding preset station.

Automatic Store / Preset scan (AMS)

Press and hold the **AMS** button for more than 2 seconds to select six strong stations and store them in the current band. The radio will automatically scan the current frequency and enter the six strongest stations into the preset memory positions for that band.

Briefly press the **AMS** button on the remote control to scan each preset station that saved in the memories in each band.

LOCAL/DX

In urban areas, most stations are strong enough and "LOCAL ON" mode should be selected. Switch to LOCAL OFF mode to search for stations with weaker signals.

Press the **LOC** button on the remote control to choose local or distant reception mode.

STEREO/MONO

FM station is received in stereo mode. However, if the signal is weak or reception is not as good as you would like, switching to MONO mode usually improves the overall sound quality. Press the **ST** button on the remote control to choose FM STEREO or MONO audio effect.

DISC / USB / MICRO SD CARD OPERATION (CONT.)

Select the track or file for playback in MP3 format

Press the **AMS** button repeatedly to select one of the following 3 search modes:

NUM SCH (Searching by track or file serial number)

DIR SCH (Searching by folder serial number)

FILE SCH (Searching by track or file name)

Searching by track or file serial number:

- In playback of files with MP3 format, press the **AMS** button once to access the track or file number searching mode which allow you to quickly find a specific MP3 track or file by its serial number, and the "NUM SCH" and "NUM ***" will appear on the LCD display in sequence, and the first symbol "*" will blink.
- Rotate the **VOL** knob to select the serial number of your favorite file with high speed.
- Finally press the **SEL** button to confirm and play the selected file.

Searching by folder serial number:

The folder search mode allows you to quickly find an MP3 track or file under a specific group folder.

- In playback of files with MP3 format, press the **AMS** button twice, the "DIR SCH" will be shown on the LCD display.
- Rotate the **VOL** knob to select a desired folder. If there are no root Folder in the MP3 disc, USB or SD card, the LCD will display "ROOT"
- Press the **SEL** button to play the first track or file of the selected folder.

Searching by track or file name:

This track or file name search function requires only the first few character as search keyword, it will allow you to quickly find an MP3 title by its name.

- Press the **AMS** button three times, the "FILE SCH" and "*-----" will be shown on the LCD display in sequence, and the first character "*" will blink.
- Rotate the **VOL** knob to change the first character (*). The character will be changed from "A" to "Z", "0" to "9" and "_", "-", "+", "space". Press the **SEL** button to confirm the character entered and the next character will blink for setting. Press the **AMS** button to delete the incorrect character.
- When matched files was found, press the **SEL** button to start play the searched file. If the file was not found, "NO MATCH" message will be visible on the display.

AUXILIARY INPUT OPERATION

This car radio is equipped an external auxiliary input jack (3.5mm) on the front panel, and a pair audio auxiliary input RCA connector at the rear cabinet of the head unit, it is compatible with audio output from an MP3 music player.

If you have plugged such a player into the AUX IN jack with a audio cable. Or connect other audio device to the audio auxiliary input RCA connector on the rear cabinet of the head unit with a audio input cable. Press the **SRC/MODE** button to switch to the AUX input mode, then you can listen to music from external devices.

Note:

Do not use the AUX IN jack and the audio auxiliary input RCA connector at the same time, otherwise, it will cause the audio auxiliary function unusable.

BLUETOOTH OPERATION

Pair and Connect

Prior to using the Bluetooth device as a hands-free system for a Bluetooth-enabled mobile phone for the first time, you must pair and connect the two devices as follows:

1. In any mode, prior to pairing and connecting, the BT logo in the LCD indicating that no device is connected. To begin pairing, enable BT mode on your mobile phone.
2. When the phone the car audio system, the CAR KIT name will be displayed.
3. Choose the CAR KIT from the device list to pair and connect with the car audio system. Upon confirming, the BT logo will stop flashing.
4. When pairing is complete, the mobile phone audio will automatically transfer to the car audio system whenever a call is made or received, or when the mobile phone plays music.

Make a Call

- To make a call, dial the call directly from the paired mobile phone.
- To make a call with this bluetooth handsfree system:
 - a) When linking up the Bluetooth-enabled mobile phone to this bluetooth handsfree system, press the  button to access the dial telephone number mode, then press the "0~9", * and # button on remote control to input the telephone number, and the entered number will be shown on the LCD.
 - b) If a number has been incorrectly inputted, press the **DEL** button or  button to delete it.
 - c) Press the  button to make outgoing call.

Redial Last Dialed Number

Press and hold the  button on the control panel to redial the last dialed phone number.

Answer a Call

- When the mobile phone is called, the incoming telephone number displays in the LCD.
- To receive the call, press the  button on the control panel.

Reject a Call

To reject the call, press the  button on the control panel.

End a Call

To end an active call, press the  button.

Switch Audio Between Car and Phone

During a call, press the **VOL** knob/button to switch the audio source from the car audio system back to your mobile phone.

Adjust Talk Volume

- During a call, use **VOL** knob or **VOL+** ▲/**VOL-** ▼ button to adjust the volume level.
- Use the **MUTE** button to mute sound.

Audio Streaming (A2DP)

1. Press the /SRC button to enter BT mode and display media in the LCD.
2. When a mobile device is paired, music played through that device will automatically be heard through the car audio system.
3. Press the  or  button to play the next or previous on the mobile phone.
4. Press the  button to pause or resume music playback.

REMOTE CONTROL

Remove Insulating Sheet

The remote control comes with an insulating sheet attached to the underside of the remote control, as illustrated on the right. The remote control will not work until the insulating sheet is removed.

Replace Lithium Battery Cell

1. When the lithium cell battery becomes weak, replace it as illustrated on the right.
2. Press and hold the movable block in the direction indicated by arrow 1. At the same time, pull the cell holder out of the remote control in the direction indicated by arrow 2.
3. Replace the old cell with a new one, making sure the (+) polarity is facing upward.
4. Re-insert the cell holder into the remote control.

- Cell leakage may cause damage to the remote control.
- Do not throw cells into fire as this may cause an explosion.
- Keep battery cells out of reach of children.

Remote Control Operation

Position the emitting window of the remote control toward the sensor window of the unit.

- The operation angle for front panel remote control reception is about 30 degrees.
- The distance between the emitting window of the remote control and the sensor window of the unit should remain less than 5 meters.

Button Names and Locations

1. (Power on/off) button
2. Band button, button
3. CLK(clock setting) button, button
4. +10(next 10 tracks), preset station 6 button, keypad 6
5. button:tune up, seek up; Track up, fast forward
6. Mute button, DEL(Delete) button
7. -10(previous 10 tracks), preset station 5 button, keypad 5
8. SEL(select) button
9. AMS (automatic music search) button, keypad 9
10. LOUD(loudness) button, keypad 8
11. RPT(repeat) button, preset station 3 button, keypad 3
12. VOL+/VOL-(volume increase/decrease) button
13. MODE button, keypad *
14. Tune down, seek down; Track down, fast reverse
15. RDM (random), preset station 4 button, keypad 4
16. ST (stereo) button, keypad 7
17. button, preset station 1 button, keypad 1
18. INT(intro) button, preset station 2 button, keypad 2
19. EQ(Equalizer) button, keypad 0
20. LOC (local) button, keypad #

Note: When using the remote control for the first time, you must pull out the protective plastic tab from the battery compartment found on the back of the remote control.

SPECIFICATIONS

General

Chassis Dimensions.....	178(W) x 160(D) x 50(H) mm
Power Supply Requirement	DC 12V
Current Consumption	15A (MAX.)
Maximum Power Output	25W x 4CH

Radio

FM

USA/ Europe Frequency Range.....	87.5 - 107.9 MHz (200KHz/Step)
	87.5 - 108.0 MHz(50KHz/Step)
Usable Sensitivity	30 dBu
I.F. Frequency	10.7 MHz

AM

USA/ Europe Frequency Range.....	530 - 1710KHz (10KHz/Step)
	522 - 1620 KHz (9KHz/Step)
Usable Sensitivity	20 dBu
I.F. Frequency	450 KHz

CD/USB/Card

Usable Audio Formats	CD/MP3/WMA
USB Port Type.....	2.0
Card Types.....	Micro SD Card
Pre-amp Output	Front and Rear
Frequency Response	20 Hz - 20 KHz
S/N Ratio	60dB

BT

BT Profile supports	A2DP, AVRCP & HFP profiles
Range of frequency	2.4GHz spectrum

TROUBLESHOOTING

The following chart will help in solving most problems that may occur. If you still have questions after going through the checklist, please consult your local customer service representative. Before going through this check list, refer the wiring and operating procedures.

Symptom	Cause	Solution
No power	The car ignition switch have not turn on.	If the power supply is connected to the car accessory circuits, but the engine is not moving, switch the ignition key to "ACC".
	The fuse has been blown.	Replace a new one.
Disc can not be loaded or ejected.	Presence of CD disc inside the player.	Remove the disc from the player, and insert a new one.
	Inserting the disc in reverse direction.	Insert the CD with the label facing upward.
	The surface of CD is extremely dirty or has been scraped.	Clean the disc or try to replace a new one.
	Temperature inside the car is too high.	Cool off or until the ambient temperature return to normal.
	Condensation	Leave the player off for an hour or so, and then try again.
No sound	Volume is in minimum.	Adjust volume to a desired level.
	The wiring is not properly connected.	Check wiring connection.
Sound skips	The installation angle is more than 30°.	Adjust the installation angle less than 30°.
	The surface of CD is extremely dirty or has been scraped.	Clean the disc or try to replace a new one.
The operation keys do not work	The built-in microcomputer is not operating properly due to noise.	Press the RESET button to restore the program.
No radio reception.	The antenna cable is not connected.	Insert the antenna cable firmly into the antenna socket of this radio.
In automatic search mode the radio does not stop at a transmitting station.	The transmission signals are too weak.	Select a radio station manually.

Warning Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
